

Regarding LPFM stations in my San Bernardino, CA area and my favorite station AIR 1 on 90.1, 100.7, 90.3; AIR 1 provides our area with positive and encouraging music and programming that my 5 children and all of my friends and family depend on. If AIR 1 was displaced by an LPFM broadcaster, we would be left with stations such as K-CAL that air obscene material morning, noon and night. I refuse to listen to vulgar and pervertly sexual material, which seems to be ever present in the airwaves and on tv. The service provided by AIR 1 serves the public interest in several ways. It gives our community a source for popular music by hundreds of "cool" artists that appeal to my teens. The music featured on AIR 1 never has negative messages regarding race, violence, drugs, promiscuity, etc. and it is imperative for the sake of our youth that we give them the option of this clean and uplifting station. It is very popular in our area. Please protect it, Thank you!
